

## *It's Time to get back to Sunday School*

### Introducing: **Peace Partners**

This is an adult and child interactive Sunday School class designed for families with children too young to be left alone in a class.

This class, led by Steph Shahade will use fun, songs, videos and movement to introduce the children to the basic, but vital lessons of faith.

This class is for preschool age children and their parents, grandparents or other guardians. Please invite your friends and neighbors for this new, fun and exciting class!

Amy Miller will again be leading our elementary age Sunday School Class!

The Theme this year is **DEEP BLUE!**  
Utilizing a variety of media and great songs and movement our children will be taking new steps of faith!

All elementary age children are invited!

Under the leadership of our Student Pastor, Gabby Kennedy, our youth in Middle and High School will be using a variety of videos to explore their faith! Bring your youth and have them bring a friend that they and we might grow together!

As always we offer Sunday School for Adults!! We will begin by exploring a few different faith traditions and then decide our direction for the rest of the year! Come out as we learn more about others and our own faith traditions!
